Physicians' Care Clinic Receives \$5,000 CVS Caremark Community Grant

Grant to DeKalb Clinic is Part of CVS Caremark's Commitment to Supporting Wellness and Prevention Programs

Decatur, GA – January 15, 2014 - Physicians' Care Clinic (PCC) announced today that it has received a \$5,000 CVS Caremark Community Grant. The Community Grants Program was created by CVS Caremark as part of its commitment to help people achieve their best health by providing financial assistance to programs that are focused on wellness and prevention. The support from CVS Caremark will help PCC fund its Diabetes Management Program.

PCC was founded in 1992 by the DeKalb Medical Society to provide a health care safety-net for low income and uninsured residents of DeKalb County. Many PCC patients have a chronic disease or condition that requires ongoing primary care and management. The CVS Caremark grant will help provide supplies, education and tools for PCC patients with Type 2 diabetes.

"We are extremely grateful to CVS Caremark for its support. PCC is the only DeKalb free clinic offering an organized program of on-going diabetes education classes and monitoring strips and meters, and it's vital to our patients," said Carole Fortenberry, Nurse Administrator who manages the day-to-day operations of the clinic.

"As a pharmacy innovation company, we are committed to building healthier communities. We believe one of the keys to helping people on their path to better health is by providing wellness and prevention programs," said Eileen Howard Boone, Senior Vice President, Corporate Philanthropy & Sustainability, CVS Caremark. "We are pleased to support the work that Physicians' Care Clinic does in the community and we look forward to working with them in fulfilling their program's mission."

PCC was selected to receive a grant through the CVS Caremark Community Grants 2013 application process. Grants were awarded to programs offered in a community or public school setting that help build healthy habits such as chronic disease management, nutrition and exercise and health screenings.

CVS Caremark Community Grants 2013 were also awarded to inclusive programs targeted at supporting wellness initiatives for children with disabilities such as physical activity and play. The goal of the CVS Caremark Community Grants Program is to help people achieve their best possible health outcomes.

About Physicians' Care Clinic

Located on Winn Way near DeKalb Medical, PCC offers non-emergency, primary medical care to 1,400 enrolled patients and operates as a 501(c)3 nonprofit. In 2013, over 200 medical professionals – physicians, nurses, pharmacists, and others—volunteered 3,900 hours at the clinic, which is also a service learning site for the Mercer School of Pharmacy. PCC collaborates closely with DeKalb Medical and partners with specialists to provide services at no charge or at reduced cost, including laboratory tests, radiology, and other medical specialty services needed by PCC patients.

About CVS Caremark

CVS Caremark is dedicated to helping people on their path to better health as the largest integrated pharmacy company in the United States. Through the company's more than 7,400 CVS/pharmacy stores; its leading pharmacy benefit manager serving more than 60 million plan members; and its retail health clinic system, the largest in the nation with more than 600 MinuteClinic locations, it is a market leader in mail order, retail and specialty pharmacy, retail clinics, and Medicare Part D Prescription Drug Plans. As a pharmacy innovation company with an unmatched breadth of capabilities, CVS Caremark continually strives to improve health and lower costs by developing new approaches such as its unique Pharmacy Advisor program that helps people with chronic diseases such as diabetes obtain and stay on their medications.
